

Accessibility for ALL Students

Description: SST 7 will be offering a new professional development series this year with a focus on ensuring that ALL students have access to Tier 1 instruction. From students with sensory disabilities to students with the most significant cognitive disabilities, each session will provide you with the opportunity to build your knowledge while also connecting it to situations that you are currently facing with providing Tier 1 accessibility for ALL students. This new and exciting professional development series will include asynchronous and synchronous learning while also incorporating the opportunity to gain information from other regional educational leaders. We are very excited about this new journey and hope you will join us!

Shawna Benson, Program Director of [Teaching Diverse Learners Center](#) at OCALI, will be a collaborative partner on this journey. We will also be fortunate to have her participate in the synchronous sessions. Throughout the asynchronous sessions, resources and content developed through [OCALI](#) will be incorporated into your learning.

Directions:

1. You must register for a session through the Google link.
2. After registering, you will receive an email that contains:
 - a. The information for the content to be completed as the pre-work (asynchronous learning) prior to the synchronous session. (Besides the 1st session on October 18, 2023, all pre-work information will be sent by email at least one month prior to the corresponding synchronous session.)
 - b. Learning Reflection document link
 - c. Zoom link for the synchronous session
3. Once the pre-work is completed, you will need to complete a “Learning Reflection” in order to receive contact hours for your asynchronous learning.

Important Information:

- In order to maximize your learning, we strongly encourage you to complete the pre-work (asynchronous learning) prior to each session even though it is not required.
- Each synchronous “Community of Practice” session will be guided by the content shared through the pre-work.

Accessibility for ALL Students Virtual Community of Practice

**These dates are for the virtual synchronous sessions.
