Description:

This three-day training is designed to assist building-level and/or district-level PBIS leadership teams with implementation of their Tier II interventions and supports. Participants will have the opportunity to grow their capacity of Tier II interventions and supports through data-based decision making and exploration Tier II Interventions. Throughout the training, PBIS leadership teams will also receive technical assistance as they begin to develop a Tier II system that incorporates evidence-based strategies and action steps related to their PBIS implementation including analysis of their readiness for Tier II interventions and supports.
